Part 1:

Are there a lot of flowers where you live?

Part 1:

Are there a lot of flowers where you live?

Part 1:

Are there a lot of flowers where you live?

to be honest... no... I don't think so...

I live quite near the centre of the city...

so there ARE a lot of buildings, and roads... and traffic...

unfortunately... not so much green space... I wish there were more...

actually... our community has a small garden... but it's mainly just grass...
